experience

British College of Applied Studies — Colombo, Sri Lanka
Lecturer — July 2018 - July 2019

Instructor for *Pearson BTEC HND* in Computing; Responsible for level 5 specialist units: *Computer Systems Architecture*, *Data Structures and Algorithms*, *Discrete Mathematics*, *Network Management*, and *Network Security*.

Exetel PTY Limited — Sydney, Australia
Network Engineer — October 2016 - February 2017

Govern, implement, and troubleshoot real-time traffic steering policies to ensure critical application delivery, value-added services, and user quality of experience driving profitability of key deliverables in the digital data & device space in terms of revenue, users, traffic across 30 Gb/s data link.

IKON Systems (Private) Limited — Colombo, Sri Lanka
Chief Information Officer — January 2016 - October 2016

Direct and manage computing and information technology strategic plans, policies, programs, schedules, and responsible for advertising network's scalability, security, and capacity-planning.

research interests

Cybersecurity, digital forensics, botnets, computer science education, distance learning, collaborative learning, computer-assisted instruction

education

Harvard College — Massachusetts, United States
Bachelor of Liberal Arts (A.L.B.) — June 2017 - September 2021

Computer Science; GPA 3.9 (as of May 2018)
Related studies in linear algebra, statistics and probability, and finance.

Stanford University — California, United States
MOOC — October 2017 - November 2017

Studies in enterprise-level web application deployment with focus on security, reliability, scalability, and cross-browser support.

Harvard University — Massachusetts, United States
MOOC — January 2015 - December 2015

Studies in computer science for real-world domains of biology, cryptography, finance, forensics, and gaming.

Université Catholique de Louvain — Charleroi, Belgium
MOOC — January 2015 - November 2015

Studies in major programming concepts, techniques, and paradigms in a unified framework.

The University of British Columbia — Vancouver, Canada
MOOC — January 2015 - October 2015

Studies in computation as a tool for systematic problem solving in non-computer-science disciplines.

Lakeland Inter-American School Colombo, Sri Lanka
Pearson Edexcel AS Level June 2014 - July 2015

- Accounting A

Lakeland Inter-American School Colombo, Sri Lanka
Pearson Edexcel Ordinary Level March 2011 - June 2014

- Mathematics A*
- Further Pure Mathematics A
- Accounting A
- Business Studies B
- Economics B
- English Language B

languages

C, C++, C#, CSS, DTD, HTML, Java, JavaScript, LISP, NesC, Objective-C, Pascal, Perl, PHP, Python, SQL, SVG, VBScript, XHTML, XML Schema, XPath, XQuery, XSLT, English, Japanese, Sinhala

projects

Thin Client Infrastructure for Lab Environment

Designed and soft-launched a tier-two compliant laboratory infrastructure comprising a total capacity of ~ten-hundred diskless nodes with a LWAPP powered wireless access network.

Distributed Management Implementation

Drafted a RPC-based policy synchronisation discharge for the multipoint bandwidth management system subsuming an aggregated link amplitude of 30 Gb/s.

On-Premises to Cloud Migration

Designed and overviewed the migration of an on-premises infrastructure for collection of massive datasets capable of 500M HTTP hits per day with peaks of 10K per second.

honors and awards

HackerRank
Gold Honours - Problem Solving

Gold honours, five-star proficiency rating, in the domains of algorithms and data structures.

HackerRank
Gold Honours - Python

Gold honours, five-star proficiency rating, in the domain of Python subsuming all language-supported paradigms.

academic service

freeCodeCamp
Curriculum Contributor February 2017 - Present

Authore guides and specimen solutions for freeCodeCamp certification program challenges on algorithm design.

edX
Content Support Associate December 2016 - Present

Validate and alter qualitative attributes of uploaded course materials to meet edX guidelines.

community service

United Nations
Volunteer Task Force January 2015 - Present
